An Art Lover's Guide to the French Riviera is a comprehensive, informal and thoroughly engaging handbook to one of the jewels in France's artistic crown.

"Murphy clearly loves the Côte d'Azur and its artists past and present, so much so that this book transforms the Riviera into one vast treasure house. It is a paean not only to the region's fifty major museums and large commercial galleries, but to churches where little-known masterpieces are housed, obscure galleries along crooked passageways, flea markets, public sculptures and architecture."

John Montague in Foreword to *An Art Lover's Guide to the French Riviera*

Patrick J Murphy is a passionate art collector and has amassed a lifetime of expertise. Over a decade ago, his artistic gaze turned to the glittering French Riviera and the wealth of art the region has to offer which has happily resulted in this practical and enjoyable volume.
